

KAYSINGER DAM MEETING — About 270 persons from the eight surrounding counties were present in Clinton Tuesday to hear Col. A. P. Rollins, Army Corps of Engineers give

details on the Kaysinger Dam project. Using maps (see insert), Col. Rollins pointed out areas to be affected. (Democrat-Capitol photo)

Preconstruction Plans Near End

Col. A. P. Rollins Jr. of the Corps of Army Engineers said Tuesday preconstruction planning for the Kaysinger Bluff dam and reservoir should be completed in 12 to 18 months.

He gave a report on water resources development in the Osage River Basin, and particularly the Kaysinger project, to a meeting of the Upper Osage-South

Grand Basin Association at Clinton. About 270 people were present.

A system of nine reservoirs and two local protection projects were authorized for the Osage Basin in Kansas and Missouri by Congress in 1954.

Rollins, district engineer at Kansas City, said the Kaysinger project without power facilities would cost \$106 million. About \$34 million would be for construction of the dam, spillway, outlet works and related items; \$24 million for land acquisition, and \$34 million for relocation of roads, railroads, pipelines and other items.

"If studies should justify the inclusion of conservation or power facilities," he said in his prepared talk, "you can see that these costs would increase."

"As to what such expenditures would do to the economy of this area, extending from Warsaw upstream to well above Osceola, is a matter which would justify a study by itself."

If the present schedule is maintained, he said, acquisition of the construction area could start in the spring of 1963 and the actual

(Please turn to page 4, column 3)

Dalton Vetoes Eighth Bill; Signs 9 Others

JEFFERSON CITY (AP)—Gov. John M. Dalton used his veto power for the eighth time today and signed nine other bills.

The bill vetoed would have done away with the use of the old, out-moded sales tax tokens as of next July 1 and abolished the sales tax revolving fund at the same time.

Dalton said the bill would have conflicted with another measure before him to do away with the token system as of Oct. 13, 1962, and set up a sales tax bracket system. He indicated he probably would sign the bracket system bill later.

Bills signed included measures to:

Increase the salaries of magistrate judges a flat \$1,200 a year. Double the nominal pay received by coroners in third and fourth class counties.

Require new residents of Missouri who have been in the state for 60 days or more must certify the length of their residence in applying for special ballots to vote for president and vice president only. They also must state that will be their only vote.

Initial claims, according to Schantz, often an index of unemployment, totaled 33,197 in June, down 7,003 from May and up only 1,957 from June one year ago, over the state.

In addition to the regular state and federal emergency programs, Missouri's ex-servicemen and former civil service workers during June were paid unemployment benefits totaling \$190,098 and \$62,852, respectively. \$263,448.96 was paid by Missouri to persons residing in other states, but who earned wage credits in the state in June.

Yuri Gagarin Is Honored by Union

MANCHESTER, England (AP)—Soviet spaceman Yuri Gagarin, who was once a foundry worker, received a gold medal from British malmated foundry workers today and was made the union's honorary member No. 1.

"Although I'm doing a different job now, I'm still a foundry worker at heart," the 27-year-old cosmonaut said.

Gagarin arrived in London Tuesday to attend the Soviet trade fair.

The temperature Wednesday was 65 at 7 a.m. and 82 at 1 p.m. Low Tuesday night was 64.

The temperature one year ago today was, high 95, low 70; two years ago, high 85, low 62; three years ago, high 85, low 63.

Lake of the Ozarks stage: 58.7 feet; 1.3 below full reservoir; down .3.

Burns Fatal To Bunceton Woman, 76

Mrs. Vinnie Anderson, 76-year-old Bunceton, Mo., woman, died at 4:40 a.m. Wednesday at St. Joseph's Hospital in Boonville of burns suffered at her home Tuesday night.

She received burns from her knees to the upper portions of her body when her clothing apparently caught fire while she was reportedly smoking a pipe.

Her husband, Henry, reported he had gone out for a package of cigarettes and on his return found his wife's clothing ablaze.

The body was taken to the Richards Funeral Home at Tipton where it will remain until the funeral services at 2 p.m. Friday at the Mt. Zion Baptist Church in Bunceton. The Rev. L. D. Hardman of Sedalia will officiate.

Mrs. Anderson was born in California, Mo., on Aug. 22, 1884, daughter of the late Louis P. and Annie Parker. She was married in December of 1917 to Henry (John) Anderson and the couple resided in Bunceton since that time.

Survivors besides the husband include: three sons, Kelley Anderson, Columbia; Arthur Henry Anderson Jr., Minneapolis, Minn.; Clarence E. Barbour, Kansas City; an uncle, Cecil Kelley, Bunceton; and a number of cousins. One daughter, Miss Cleo Anderson, preceded her in death in 1955.

Mrs. Anderson was a member of the Mt. Zion Baptist Church. Pallbearers will be Gene Field, Bill Nelson, Collins Nelson, Joe Field, Bill Newman and Lloyd Gray.

Burial will be in Bunceton Cemetery.

Dies Of Heart Attack Sunday

Ex-Spy Whittaker Chambers Death Reported By His Wife

WESTMINSTER, Md. (AP)—Whittaker Chambers, an ex-Communist spy who turned informer in the Alger Hiss case, has died at a quiet Maryland farm where he lived in self-imposed exile.

Chambers, who was 60, succumbed to a heart attack Sunday at his home in nearby Bachman's Valley. His family announced the death Tuesday, after the body had been cremated in private ceremonies.

Chambers was catapulted into the nation's headlines in 1948 as the accuser and chief government witness against Hiss, a scholarly, well-regarded State Department aide.

In testimony before the House Committee on Un-American Activities, Chambers accused Hiss and others of being Communist agents who supplied him with secret information.

Hiss filed a \$75,000 libel suit when Chambers repeated the charges outside the congressional committee's cloak of legal immunity. But the suit never was tried.

Chambers produced micro-filmed and typewritten documents from a hollow pumpkin on his farm and Hiss was indicted and convicted for perjury. Hiss served 44 months of a five-year term and was released in 1954.

A key figure in proceedings which led to the conviction was former Vice President Richard M. Nixon, then a freshman congressman from California.

Nixon won a reputation as an anti-Communist crusader as a result, and the incident generally

88 Are Killed In 2 Crashes

African Crash Claims 72; 17 Die In Denver

By THE ASSOCIATED PRESS

Two airliner crashes — one at Denver and the other in Africa — killed at least 88 persons Tuesday and today.

A giant Czechoslovak turboprop struck a power line and exploded today while coming in for a landing at Casablanca, Morocco. All but one of the 72 persons aboard were reported killed. None was believed to be an American.

Record Height In Shot

New Satellite To Fly Over Soviet Union

POINT ARGUELLO, Calif.

(P) — The United States today fired — into a record 1,850-mile-high orbit — the first missile alarm satellite to pass over Russia.

The orbit altitude was a surprise — and a pleasant one. The best the Air Force had hoped for was about 500 miles. Previous high for a U.S. satellite was about 300 miles.

High altitude benefits the effectiveness of Midas' detection system, the Air Force said, because it permits a larger scanning area.

Midas III is circling the globe once every 2 hours and 40 minutes. The orbit is approximately circular, just what was ordered.

The orbit was achieved by re-starting the satellite's engine over Africa for a brief burst that increased altitude and made the orbit more circular.

The satellite, after a series of disappointing delays, roared aloft at 8:12 a.m. from this Navy space base and into a polar orbit that will carry it repeatedly over Soviet territory.

The first pass over Russia will be about 7 hours and 20 minutes after launch.

Midas III is pioneering a satellite series aimed at giving nearly instant warning of hostile missile firings. In its nose is an infrared eye which can sense heat from the exhaust of a missile blasting off hundreds of miles below.

The Soviet-built plane was en route from Prague to West Africa and had made a stop at Zurich, Switzerland.

At least 17 persons were killed Tuesday when a United Air Lines DC8 jet crash-landed and burst into flames at Stapleton Airfield, Denver. The plane, carrying 122 persons, veered suddenly off a runway as it touched down. Fifty passengers were hospitalized and 56 persons, including the crew of 7, escaped serious injury. One of those killed was a civil engineer whose survey truck on the airfield was crushed by the jet as it served off the runway.

A jet airliner load of 117 persons escaped injury when an Eastern Air Lines plane blew a tire and veered off a runway into grass after landing at Miami early today. The airline said its DC8, carrying 99 passengers to Miami from Boston and Philadelphia, was not damaged.

Crash Victims Are Listed

DENVER (AP)—These were the dead in Tuesday's crash of a United Air Lines DC8 jet at Stapleton Airfield:

Jason Gale, 10, of Torrance, Calif.

Warrant Officer George Oake, Thule Air Force Base, Greenland, en route to Ent AFB, Colorado Springs.

Earl Linne, 28, Harvey Lane, Malvern, Pa.

Jill Guyer, 1, Fort Lyons, Colo.

Ann Guyer, 4, Fort Lyons.

Cynthia Guyer, 8, Fort Lyons.

George Hambrecht, 28, Willow Grove, Pa.

Henry C. Blom, Denver, a city engineer whose truck was hit by the plane.

Mrs. Earl Guyer, Fort Lyons.

Benita Marple (no address).

Susan McDonald, Salt Lake City.

Leonard McDonald, Chugwater, Wyo.

Ruth A. Pierce, Shenandoah, Iowa.

Mrs. Daisy Shepard, Moline, Ill.

Mrs. Kathryn Tobin (no address).

Mrs. Regina Vogel, Oakland, Calif.

Dr. E. A. Williams, physics professor at University of California, Santa Barbara, Calif.

LEAVES HOSPITAL—Actress Marilyn Monroe sits in a wheel chair as she leaves a hospital in New York after a recent emergency gall bladder operation. An attendant is pushing the wheel chair to an automobile. A hospital spokesman said certain muscles are not yet functioning normally and the blonde film star cannot walk completely upright. (AP Wirephoto)

Bid Call Set For Work At Grade School

Boiler Repairs, New Installation For Whittier

A bid call for remodeling one boiler and installing a new boiler to replace a 30-year-old heating unit at Whittier School was set for Aug. 1, at the regular meeting of the Board of Education Tuesday night.

At the meeting the board formally commissioned Bretton, Collison & Associates of Kansas City, plumbing and heating consultants who have worked with the architects in other projects for the board, to arrange for completion of the Whittier job. Bids will be opened at 7:30 p.m. at the office of the superintendent of schools Aug. 1.

Maxwell T. Sanford, representing Dan R. Sanford & Sons, the architectural firm in charge of the building program, was at the Tuesday meeting, and he revealed that the entire program is a little behind schedule, due to the abnormal wet season and lack of supplies, but that otherwise the program is progressing satisfactorily.

At one point in the meeting it was brought up that the architect, or his heating consultant, had made a mistake, or omission,

(Please turn to page 4, column 5)

Urban Plan Road Work Appears Near

Contracts May Be Let During This Fiscal Year

Two portions of Sedalia's Urban Plan are included in a tentative contracting schedule for the 1962 Fiscal year, which began July 1, according to a report from the Missouri State Highway Commission.

The schedule includes one mile of right-of-way acquisition, grading and paving from the Route 50 relocation site just north of Sedalia, southwest to the city limits; 1.6 miles right-of-way acquisition, grading, paving and bridging from the city limits south to Broadway (Highway 50); and 1.1 miles of right-of-way acquisition from New York east to the MoPac tracks.

This indicates the entire Urban Plan project for Highway 65, including the overpass over the MoPac tracks, may be contracted this year. The acquisition of the right-of-way on East Broadway during this fiscal year indicates the paving, etc., may be contracted next fiscal year all according to previously announced plans.

The Highway Commission a couple of years ago announced plans to relocate Highway 50 to run just north of Sedalia, thus the Highway 65 improvement in this year's schedule will end at the junction with the proposed new Highway 50.

The Missouri State Highway Commission has approved a tentative contracting schedule for the 1962 fiscal year on the interstate, primary and urban highway systems. The period began July 1, 1961, and extends through June 30, 1962.

The approved schedule totals \$91,411,000 and extends over 365.6 miles of the state's highways and includes construction and improvements along with engineering expenses and contingencies.

In addition, the Commission has approved \$27,257,000 for right of way commitments extending over 262.5 miles.

The approved schedule is a realistic one in that it stays within anticipated revenues. In the event additional money is available the Commission will step up its contracting program.

Likewise, in addition to the above schedule, the Commission has approved the state's secondary (farm to market) highway system program for the 1962 fiscal year. A detailed list of this work will be covered in a subsequent news release.

This tentative contracting schedule sets up \$58,450,000 for work on 143.3 miles of interstate system routes, \$25,729,000 on 208.9

(Please turn to page 4, column 5)

Weather Satellite Into Orbit

Thor Delta Rocket Carries Tiros III 400 Miles High

CAPE CANAVERAL, Fla. (P) — A hurricane hunting weather satellite was fired into orbit today to gather information on the origin, development and movement of the monster tropical storms.

A 92-foot Thor Delta rocket carrying a 285-pound Tiros III satellite roared aloft from Cape Canaveral at 5:25 a.m. EST.

Nearly two hours later the National Aeronautics and Space Administration reported the three-stage vehicle had successfully placed the weather-eye in orbit about 400 miles above the earth.

Officials reported the tracking stations at Woomera, Australia; San Nicholas, Calif., and Wallops Island, Va., had received good from the satellite on its first pass around the globe.

Wide angle television cameras in the satellite were to begin transmitting pictures of cloud covers when orbit was obtained. There was no immediate word on whether the cameras were working.

Meteorologists hope the pictures will provide valuable information on what causes hurricanes and how they develop.

Shaped like a huge drum with two television cameras protruding from its base, Tiros III is an improved version of two extremely successful Tiros satellites orbited last year. The earlier space packages transmitted thousands of useful cloud-cover photographs to earth and proved the feasibility of using such vehicles for forecasting.

The launching today was planned to coincide with the season in which hurricanes normally form in the Atlantic and Caribbean.

Tiros stands for Television and Infrared Observation Satellite.

Eighth Concert To Be Played Thursday Night

Under the baton of Lloyd Knox the Sedalia Concert Band will present the eighth in a series of 12 concerts scheduled for the summer season at Liberty Park beginning at 8 p.m. Thursday.

Before the intermission the band will play: "Bell Isle March," Smith; "March Forth Concert March," Moore; "Serenade," Romberg; "Great Day," Youman; highlights from "The Cat and the Fiddle," Kern; "On the Street," Connell; "Yours Is My Heart Alone," Lehar; "Gallantry March," Merang.

Following the intermission the band will offer: "King Cane," Struchio; "Pretty Baby," Jackson and Van Alstyne; "Broadway Overture," arranged by Beeler; "March Dixieland Band," McRae; "Thine Alone," Herbert; "Rainbow Pier," Richards. The concert will close with the playing of the National Anthem.

Musicians for the concert series are furnished through a grant from the Recording Industry Trust through the cooperation of Local 22, American Federation of Musicians, in cooperation with the Sedalia Park Board.

Panel Discussion

'YOUR COMMUNITY AND THE NURSING HOME' was the subject of a panel discussion held Tuesday at 8 p.m. at the Pacific Cafe. Panel members seen above, from left to right, are Mrs. Virginia Westbrook, RN, supervisor of institutional advisory nurses; Dr. C. W. Meinershagen, Division of Health officer for District 3; Harlan Snow, representing the Sedalia Jaycees; Dr. Donald Proctor, MD, supervising physician of a nursing home, and Rev. Fred J. Freeland, administrator of Kidwell Rest Home at Versailles. (Democrat-Capitol Photo)

Public Meet Tuesday

Workshops Wind Up Session For Nursing Home Officials

A two-day training institute for nursing home personnel wound up its sessions today with a series of four workshops at the Pacific Cafe. Forty persons registered for the opening of the course Tuesday.

General Browne made the estimate after Roswell L. Gilpatrick, deputy secretary of defense, said in Washington that some National Guard and reserve units may be called up to augment the regular forces.

Workshops were held from 9 a.m. to 3 p.m. with the group dividing into four sections and each section rotating to a new workshop each hour. A general discussion period was held from 3 to 4 p.m. Subjects covered during the workshops included: "Pitfalls and Their Correction," "Information Please," "Strike Back," and "Pencil Pushing."

"Your Community and the Nursing Home" was the subject of a panel discussion held Tuesday night at 8 p.m. Taking part on the panel were: Dr. C. W. Meinershagen, Division of Health officer for District 3; Dr. Donald Proctor, MD, supervising physician of a nursing home; Mrs. Virginia Westbrook, RN, supervisor of institutional advisory nurses; Rev. Fred J. Freeland, administrator of Kidwell Rest Home at Versailles; and Harlan Snow, representing the local Jaycees.

Dr. Meinershagen was the keynote speaker during the opening session Tuesday and Dr. H. J. Freund, of the state hospital at Fulton, was also on the program. Sessions were under the direction of Mrs. Mary Gore, RN, institutional advisory nurse serving in this area.

In attendance at the training

\$5 Million Project May Be Awarded Howard Construction

Howard Construction Company is the apparent low bidder on a contract for more than over \$5 million in highway construction work on Route 36 through St. Joseph, Mo., the firm announced today.

Bids were opened Tuesday by the State Highway Commission, but a spokesman for the contracting firm said no official word regarding the awarding of the contract had been received as yet. The Howard firm's bid was for \$5,139,000. The project will involve complete construction of a new highway.

Byrd Ticket Sweeps Vote In Virginia

RICHMOND, Va. (AP) — The Byrd organization ticket, led by Albert S. Harrison Jr. for governor, scored a sweep in Tuesday's state Democratic primary in Virginia.

The durable conservative faction of Sen. Harry F. Byrd that has dominated the state's political scene for more than 30 years convincingly turned back the most determined challenge it has faced in modern times.

Harrison, 54, who resigned the office of attorney general to run for the top spot, defeated A. E. S. Stephens, 60, the present lieutenant governor, who broke with the Byrd forces to strike out on his own.

Nominated with Harrison were his running mates, Mills E. Godwin Jr. for lieutenant governor and Robert Y. Button for attorney general. Both are now state senators. They won by slightly smaller margins, over State Sen. Armistead L. Boothe and T. Munford Boyd, a law professor at the University of Virginia, respectively.

Apparently Byrd himself didn't think his team was in any great jeopardy, since the only public move he made in the campaign was to release a letter Stephens wrote only last December asking for his support for governor. This was Byrd's reply to a campaign statement by Stephens that he'd never solicited aid from Byrd.

Near complete returns from the state's 1961 precincts gave Harrison a total that approached 60 per cent of the vote and his running mates victories of almost that proportion.

Unofficial returns gave:

Harrison 184,985; Stephens 138,740 (1862 of 1961 precincts)

Godwin 180,477; Boothe 148,735 (1886 precincts)

Button 171,925; Boyd 14,925 (1887 precincts.)

A third candidate for attorney general, Eugene Adkins who advocated legalized gambling and the sale of whiskey by the drink, pulled only 13,508 votes and was no factor in the outcome.

The state vote was far short of forecasts of a 400,000 primary although the complete official total will be near the record of 345,000 set in 1952 when Byrd was opposed for the Senate nomination by Francis Pickens Miller.

Pays Jay-Walking Ticket With Quip

VAN NUYS, Calif. (AP) — C. Philip Norsen of Van Nuys reluctantly mailed in his fine for a jay-walking ticket.

But he didn't like it. "I strongly deny any such interference (with traffic)," he wrote Tuesday. "At my age, 70, shouldn't I be given a medal rather than a ticket for my dexterity in sprinting?"

Accident Injuries Claim Third Life

KANSAS CITY (AP)—The collision of two cars in Platte County on June 24 has claimed a third life.

William Styne Miller, 68, of Platte City, Mo., died Tuesday of injuries. His wife, Hope, and Paul Leland Halcomb, 49, of Kansas City were killed in the crash.

Doctor Kept Lunch Date After Crash

EDITORS NOTE—Dr. Raymond Pogge, 44, of Lincoln, Neb., was one of 120 passengers and crew members aboard the United Air Lines DC8 which crashed in Denver Tuesday, killing at least 17 and injuring 44. Here is Dr. Pogge's story of the disaster.

By DR. RAYMOND POGGE
As told to the Denver Post

DENVER, Colo. (AP)—An hour before the crash, I'd boarded the plane at Omaha for a flight to Los Angeles. But I had a noon luncheon appointment to keep in Denver.

The captain announced, while we were circling Denver, that there was a decrease of fluid in the hydraulic system, and that we should not worry if we saw fire engines when we landed.

As we landed, the velocity of the plane kept the plane momentarily forward, like a normal landing.

Then it began to feel like a bus with wobbly axles going 200 miles an hour. There was a flash on the right as one of the engines apparently exploded.

Then, almost simultaneously, there was an explosion on the left and the plane stopped. The girls (stewardesses) told everyone to be calm and get out through the

Land Fight Not Through For Man, 60

PITTSBURG, Mo. (AP) — Otto A. Blume, in his 60s, is not through fighting the government.

Monday, federal marshals moved him out of his farmhouse in the Missouri Ozarks, then had it leveled by a bulldozer.

Tuesday, he was back, living out of a truck parked in another part of the farm the government left him.

His farm borders the Pomme de Terre reservoir, and the marshals had tried to get Blume to leave the condemned portion for a year. "I'm just going to camp right here because it's nice and warm," he said. Besides, he suspects the government has designs on what will be lakefront property when the reservoir fills.

"I've got 100 acres of high ground and the best lake sites on

exits. Several jumped before a chute was opened for us to slide down.

I saw a woman and her little baby who were burned painfully—second degree burns. I carried the baby and, at the terminal, I asked for the first aid office, because I thought I was going to treat the burns.

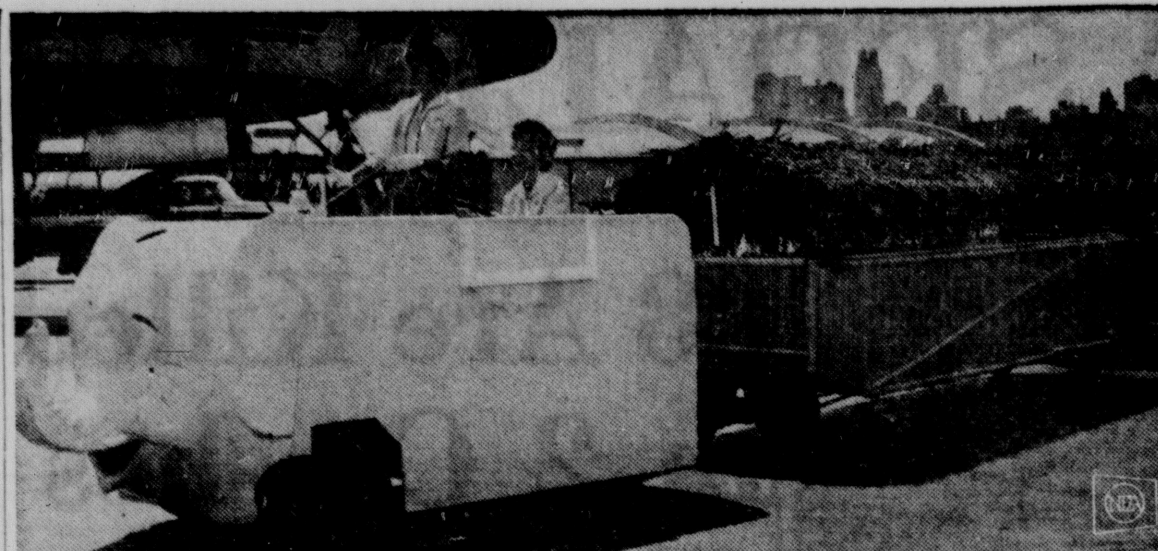

But this truck picked us up and with the siren on brought us to the hospital. I shouldn't have been brought in the truck because I wasn't even hurt.

(Pogge was able to keep his luncheon appointment in Denver.)

\$1,500 May Return To Stella Community

WASHINGTON (AP)—The little southwestern Missouri community of Stella may get its \$1,500 back from Uncle Sam yet.

A bill introduced by Rep. Durward Hall, R-Mo., to reimburse the Stella school board for the expenditure was approved in the House Monday. The measure now goes to the Senate.

The government billed the school board for the \$1,500 after the Army had allowed use of a vacant Ft. Crowder barracks as a temporary classroom building.

An earlier congressional bill to repay Stella became embroiled in a civil rights wrangle and failed.

Rep. Morgan M. Maulder, D-Mo. "He told me I was entitled to every inch of my shoreline," Blume said.

Consider UN Troops For Duty in Kuwait

CAIRO (AP)—Arab leaders are considering a proposal to replace British forces in Kuwait with U.N. troops from the Gaza Strip, it was reported today.

A reliable source said President Nasser of the United Arab Republic probably would discuss the proposal with Kuwait envoy Sheikh Jabir al Ahmad al Sabah. The cheik came to Cairo reportedly to seek Nasser's support for the proposal.

Answers Your Problems

Dear Readers: Who is the most adored and cherished woman in all of America? According to the mail that has flooded my desk these past few weeks it's the mother-in-law.

It all started when a reader wrote to say she couldn't understand why the American mother-in-law was constantly downgraded, ridiculed, and scorned. Her mother-in-law, she announced, was "just lovely" and there must be others who are wonderful, too. Why don't I print a letter in praise of a mother-in-law for a change?

I told her I would do more than that. I offered a gold medal with an appropriate inscription to the person who wrote the best letter in praise of a mother-in-law.

The mail has been back-breaking, heart-warming and fascinat-

ing. The longest letter (30 handwritten pages) came from Eureka, California. The shortest letter came from New Orleans — (three words). "She's the most!"

Almost every letter topped a list of her sterling qualities with: "She minds her own business — she never interferes."

According to my mail, Buffalo has the greatest number of dearly-loved mothers-in-law. Des Moines has the fewest. Letters from women about "my husband's mother" outnumbered (eight to one) letters from men about "my wife's mother. Several teenagers wrote about a grandmother "who lives with us and is a wonderful mother-in-law and deserves a medal."

Here are some excerpts from the mail:

From Memphis: "I never use the term 'mother-in-law.' I always say 'my other mother.' When I married her son she said, 'Honey, I'm turning him over to you. And she meant it.'"

Stockton, California: "When I was a bride I asked my mother-in-law (a great cook) for some of her special recipes. She said, 'Here they are, but fix things YOUR way. If he doesn't like it he can lump it.'"

Kitchener, Ontario: "I was a bus driver. My mother-in-law never failed to wait up for me to prepare a hot snack. Often it was 4:00 or 5:00 A.M. My wife slept."

Detroit: "My mother-in-law, God bless her, tried to talk me out of marrying her son. She said he wasn't good enough for me. I wish I had listened to her. She was right."

Buffalo: "My mother-in-law worked at a gas station, drove a truck and ran a grocery store to put her two sons and a nephew through college. I only wish I were half the woman she is."

Lima, Ohio: "She has a terrific head on her shoulders, that mother-in-law of mine. She taught me never to draw to an inside straight."

Traverse City, Michigan: "My husband and I had our first big fight a week after we returned from our honeymoon. My mother-in-law sat in the same room listening to the shouting and name calling. Never once did she look up from her newspaper. When my husband asked her for an opinion she replied, 'I didn't hear a word.' Then she put on her coat and left the house for an hour."

Park Ridge, Illinois: "My mother-in-law is a doll, but if you ever run a contest for the world's greatest father-in-law let me know: I've got the champion." Tomorrow I'll print the name of the gold medal, and the letter which won the prize. — ANN LANDERS.

Are you tempted to smoke because the crowd does? If so, send for ANN LANDERS' booklet, "Teenage Smoking," enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

Car Unwelcome Intruder Into Living Room

HOUSTON, Tex. (AP) — Neighbors drop in often at the home of Mr. and Mrs. Jerry Beck, but not usually like J. L. Denby did. Denby backed his car into the Beck living room Tuesday.

He said a carburetor linkage broke as he backed out of his driveway and the motor raced wide open. He lives across the street from the Becks.

"I stood up on the brakes, I hit them so hard," Denby said. "My car went across the street and hit the edge of their driveway and veered partly into the yard. Then it hit the house."

No one was injured.

Social Calendar

THURSDAY

Guild, Federated Church, meets at 1 p.m. at south shelter house of Liberty Park. Bring sack lunch.

Eunice Circle of St. Paul's Lutheran Church, meets at 1:30 p.m. with Mrs. William Schutt, 1201 East Tenth.

KNOCKING THE ROCK—It may never achieve the popularity of the revived rocking chair but this Porter's Chair displayed at the Chicago Home Furnishings Show has its points. The enclosed, curved back, something like a sedan chair's, protected occupants from drafts for centuries. The one photographed is as modern as model Irene Simonaitis' costume, even to foam rubber cushions.

Pays for Fire Plug Damaged Years Ago

PHILADELPHIA (AP) — The letter was postmarked Schenectady, N.Y.

Enclosed was a money order for \$250.

The anonymous sender explained his car damaged a fire hydrant in Philadelphia about a quarter of a century ago.

"Philadelphia and its citizens have been good to me," the letter stated. "I regret it has taken me so long to wake up to the realization."

In disclosing the letter Monday, the mayor's office said that the money had been turned over to the city treasurer.

Ticket Agent Finds Boy, 12 Is Very Honest

ST. PETERSBURG, Fla. (AP) — George Young, a ticket agent for Greyhound Bus Lines, says a 12-year-old boy approached his counter and purchased \$4 worth of half-price commuter tickets giving his age as 11.

Tuesday, Young said, the boy

Kookie Byrnes Makes Proposal To New Starlet

HOLLYWOOD (AP) — Friends say actor Edd Byrnes of the "77 Sunset Strip" TV series has asked starlet Asa Maynor to marry him.

The two have been dating for the past two years.

Byrnes leaves today for London and Paris, and reportedly won't get a reply from Miss Maynor until he returns.

A friend quotes the actor as saying: "she hasn't said 'yes' or 'no'. When I get back from Europe we are going to talk things over and I have high hopes that she will accept me."

Policeman Sues Woman Who Mad Attack On Him

LOS ANGELES (AP) — A 114-pound woman who put up a fuss when stopped by a policeman was sued for \$25,000 damages by the 180-pound officer on grounds she assaulted him without provocation.

Germoe J. Faust, 35, filed the civil suit Tuesday against Shirley Lowrey 31.

She "assaulted, grabbed, wrestled, twisted and yanked" him after he gave her a ticket last Feb. 22 for a red light violation, his complaint said. Five patrol cars and a motorcycle officer arrived to reinforce him, he said, and he suffered a dislocated finger on his left hand.

She was fined \$100 in May for resisting arrest.

returned, put some money on the counter and said he was really 12 years old and should pay the full fare.

The agent said it was the first time in 30 years of selling tickets that anyone has corrected an error in favor of the company or to pay full fare when they could have ridden for half.

TERRO ANT KILLER

Kita Improves After Gulping A Rubber Ball

DETROIT (AP)—Kita is doing better, but she's still not well.

The 1,100-pound baby elephant has been resting comfortably in the past 24 hours since receiving twice daily forced-feedings of about 10,000 calories.

Like anyone else with a sore throat, Kita gets penicillin. Her dosage amounts to 7-million, 200-thousand units—and that's twice a day.

Kita has been ailing since last week when she swallowed a little girl's rubber ball that rolled into her cage at the Belle Isle Children's zoo.

Her throat, which suffered a severe inflammation, is healing slowly.

\$3 Million Is Approved For Indian Tribes

WASHINGTON (AP)—A \$3,288,974 award by the Indian Claims Commission to two bands of Pottawatomis in Oklahoma and Kansas was approved Tuesday by a House Interior subcommittee.

The bill goes to the full committee.

Under the bill, the funds may be spent for any purpose authorized by tribal governing councils and approved by the secretary of interior.

Rep. Tom Steed, D-Ola., sponsor of the measure, said it would award more than \$2 million to the Citizens Band of the Pottawatomis tribe in Oklahoma and more than \$1 million to the Prairie Band in Kansas.

Attorney and litigation fees of \$312,051 would be paid by the Indians.

The Indian Claims Commission held that the government paid an inadequate price for five million acres of tribal land in Iowa and 900,000 acres in Kansas under an 1856 treaty.

Latin Military Men Will Study Red Strategies

FORT AMADOR, Panama Canal Zone (AP)—The U.S. Army unveiled plans Tuesday to instruct Latin-American military commanders on the theories and practices of Communist aggression.

The course, which will stress means to combat subversive and guerrilla tactics developed by the Soviet and Chinese Communists, will begin July 31 at Fort Gulick in the Canal Zone. It will be similar to one now taught at Fort Bragg, N.C.

Many Latin-American republics have requested such a course.

High School Bond Issue Loses Again

CAMERON, Mo. (AP)—A bond issue for a new junior-senior high school lost again Tuesday for the sixth time in two years.

The vote on the \$840,000 special election was 695 for to 748 against.

SEDALIA, MISSOURI

OBITUARIES

Mrs. Florence Ida Harmon

Mrs. Florence Ida Harmon, 61, California, died at her home at 1:30 p.m. Tuesday. Mrs. Harmon, wife of Louis Harmon, had been in ill health for the past three years.

She was born in California on April 16, 1900, daughter of the late John Wesley and Belle Thompson Heater. She married Louis Harmon in 1920 in St. Louis.

Surviving are Mr. Harmon, of the home in California; three brothers, Ellis Heater, California; John Heater, California; Willard French, St. Louis; and a sister, Flossie Heater, address unknown.

Mrs. Harmon was a member of the American Legion Auxiliary in California.

Funeral services will be held at 2 p.m. Thursday at the Bowlin Funeral Chapel in California, with the Rev. Marvin Pitney officiating. Music will be by Jack Bowlin, accompanied by Miss Mary Hirt at the organ.

Burial will be in the McGirk Cemetery. The body is at the Bowlin Funeral Home.

Maud M. Hunter

Maud M. Hunter, 83, Versailles, died Monday at St. Joseph's Hospital in Boonville.

Born March 20, 1878, in Warrensburg, she was a daughter of the late John W. and Jane Dyer Cleveland. July 6, 1898, she was married to Charles D. Hunter, who preceded her in death in 1957.

Surviving are: two sons, Warren Hunter, Covina, Calif.; Lloyd T. Hunter, Raton, N. Mex.; a daughter, Mrs. Lucille Williams, Fort Smith, Ark.; three brothers, Luther Cleveland, Rolla; Ray Cleveland, Richland; Willard Cleveland, Campbell, Calif.; one sister, Mrs. Ruth Bowman, Rono, Va.; and two grandchildren.

Funeral services were held at 2 p.m. Wednesday at the Kidwell Funeral Home in Versailles with the Rev. J. L. Freeman officiating.

Burial was in the Versailles Cemetery.

Mrs. Lawrence Couey Rites

Funeral services were held at 2 p.m. Wednesday at McLaughlin Funeral Chapel for Mrs. Lawrence Couey, 56, who died Sunday at Excelsior Springs. The Rev. Walter D. Niles, pastor of Wesley Methodist church, officiated.

Burial was in Crown Hill Cemetery.

Frank E. Ditch Rites

Funeral services for Frank E. Ditch, 75, 114 East 14th, who died Monday at the Community Rest Home, were held at the Ewing Funeral Home at 1 p.m. Wednesday. The Rev. S. K. Mabry, officiated.

Rev. S. K. Mabry, Jr., sang "In the Garden" and "The Old Rugged Cross," accompanied by Mrs. Duane Ewing at the organ. Burial was in Crown Hill Cemetery.

Eddie O'Farrell

Eddie O'Farrell, 85, 1206 South Grand, died at Bothwell Hospital at 7:10 a.m. Wednesday. He had been a patient at the hospital two weeks.

Mr. O'Farrell was born at Carbondale, Penn., May 2, 1876. His boyhood and early life was spent in Pennsylvania where he was employed as a miner. He lived in Sedalia the past 32 years. Mr. O'Farrell was a member of the Sacred Heart Church.

He is survived by one sister, Sister Mary Ellen O'Farrell of the Immaculate Heart of Mary Convent, Scranton, Penn.

Funeral services will be held at Sacred Heart Church at 9 a.m. Thursday. The Rev. Father Norbert Adelman will officiate.

Burial will be in the Calvary Cemetery.

Friends will recite the Rosary at the Ewing Funeral Home at 7:30 p.m. Wednesday. The body is at the Ewing Funeral Home.

Mrs. Jessie C. Yancey

Mrs. Jessie C. Yancey, 78, died in New Carlisle, Ohio, Tuesday at 6 a.m.

She had been a resident of LaMonte for many years, and had been at the home of her daughter in New Carlisle, Ohio, for the past two months.

The body will be brought to the Parker-Moore Funeral Home in LaMonte, arriving Thursday morning.

Funeral arrangements are incomplete.

James A. Wadleigh

Funeral services for James A. Wadleigh, 81, 1902 South Washington, who died Monday night, were held at the Ewing Funeral Home at 3 p.m. Wednesday. The Rev. Melvin Orr of McKenzie, Tenn., officiated.

Mrs. Jack Herndon sang "The Old Rugged Cross" and "Abide With Me," accompanied by Mrs. H. O. Foraker at the organ.

Pallbearers were Virgil Wharton, Robert Wharton, Donnie Wharton, Howard Bell, Carl Johnson and Charles Wissman.

Burial was in Green Ridge Cemetery.

Mrs. Pauline Imbusch Rites

Funeral services will be held at 2 p.m. Thursday at the Scriven-Stevenson Funeral Home in Stover for Mrs. Pauline Imbusch, 82, Cole Camp, who died Tuesday at the University of Missouri Medical Center in Columbia. The Rev. Walter Dierking will officiate.

Burial will be in Bethlehem Cemetery.

Anna Marie Schoenthal Rites

Funeral services were held at 2 p.m. Wednesday at the Jamestown Methodist Church for Mrs. Anna Marie Schoenthal, 72, Jamestown, who died Monday at her home. The Rev. Robert Clark officiated.

Burial was in the California City Cemetery.

Nels Mickelsen Rites

Funeral services will be held at 10:30 a.m. Thursday at the Davis and Son Chapel in Lincoln for Nels Mickelsen, 81, Route 1, Lincoln, who died at 8:30 p.m. Monday at his home. The Rev. S. A. Gardner will officiate.

Burial will be in Clear Creek Cemetery.

Britton Grave Rites

Funeral services will be held at 2 p.m. Thursday at the Davis and Son Chapel in Lincoln for Britton (Mac) Graves, 76, Route 1, Warsaw, who died Monday afternoon while working in a field on his farm. The Rev. S. A. Gardner will officiate.

Burial will be in Sunnyside Cemetery near Lincoln.

Christmas Plans On Breakfast Slate

Christmas closing hours and Christmas decorations will be among the things discussed Thursday at the Retail Merchants Breakfast which will be held at the Coffee Pot at 7:15 a.m. A film on Christmas decorations and samples will be shown.

Also Soap Box Derby Days, which are next week, will be explained as well as the State Fair windows contest.

Glenn Lewis, chairman of the Retail Merchants Division of the Chamber of Commerce is anxious to have a large attendance of merchants in order to make decisions on these important things.

Name Thompson To State Farm Insurance Post

George R. Thompson, former elementary principal at Jefferson and Horace Mann, was appointed this past week to the local staff of the State Farm Insurance Companies, it was announced here by

George Thompson

William C. Hopkins, district manager for central Missouri.

Thompson and his family moved from St. Louis to their new residence at 2702 Southwest Blvd. He has been district manager with the Allstate Insurance Companies in Des Moines and St. Louis since 1959, at which time he resigned from the Sedalia public schools to enter the insurance business on a full-time basis.

The new State Farm local agent has moved into the State Farm offices in the Brinc Building, 1716 West Ninth Street, where he offices with Russell E. Gilmore, Wray Schroeder, and Hopkins. Thompson will be a local agent with State Farm, being licensed in auto, life, and fire insurance. While with Allstate, Thompson was the winner of a number of production honors.

Aged Princess Held Prisoner In Plush Home

GENOA, Italy (AP) — Police held a German baron and his Italian woman friend today on charges of keeping an aged princess a virtual prisoner in her luxurious home for nearly 10 years and fleeing her of more than \$80,000.

The accused are Baron Waldemar von Hoyningen-Huene, 45, owner of a dental appliances firm in Genoa, and Luigia Zanetti, 53. Their victim was identified as widowed Princess Carolina Casarotto Borghese, 78.

Preconstruction

(Continued from Page One)

construction would then take 3½ to 6 years.

Of other Osage Basin projects in Missouri, Rollins said no planning or construction funds have been allocated for the Hackleman Corner site on Cedar Creek, the Stockton project on the Sac River is under active planning, and the Pomme de Terre Reservoir near Hermitage is nearly complete and scheduled for limited operation this fall.

Judge Haysler A. Poague, an association official, emphasized that many benefits would come out of this project for residents in the eight county area.

Poague said 11,000 square miles of land above the Osage River would be affected and that the figure represents seven million acres of land. He congratulated Senator Stuart Symington and Congressman Morgan Moulder for the work they have done in getting the project this far.

The general feeling of persons attending the meeting appeared to be that the government is ready to get the dam project under way providing other problems related to such a project, can be overcome.

Poague indicated the delay may be the result of the Highway Department failing to plan permanent roads in the area that would not be affected by the water. He said the reluctance of landowners to cooperate had had a delaying effect.

A breakdown on estimated attendance at the meeting from the counties to be affected by the dam looked this way: St. Clair, about 25; Cass, about 20; Johnson, about 10; Benton, about 15; Henry, about 100; Bates, about 15; Vernon, about 15; and Pettis County was represented by Chamber of Commerce president Sam Boyle, Mrs. Boyle, and W. D. Hill, of The Democrat-Capital.

DAILY RECORD

• City Hospital

Bothwell Visiting Hours: First and second floors, 2 to 4 p.m. and 7 to 8:30 p.m. Third floor (maternity), 3 to 4 p.m. and 7 to 8:30 p.m.

BOTHWELL — Medical: Mrs. Pearl Ritchie, 715 East Ninth; Mrs. Joe White, 516 West 20th. Surgery: Lynn Chick, Windsor; Miss Carla S. Peters, 1314 South Arlington; Mrs. Dorman E. Ball, 659 East 14th.

Dental: Mrs. Charles G. Satterwhite, 2109 South Harrison.

Accident: Miss Nellie Hutchinson, 301 West Henry.

Dismissed: Master Michael Trotter, 1210 East 13th; Clarence Hensley, Warsaw; Mrs. Walter Curry, 648 East 14th; Mrs. Larry Witt, 1112 West Third; Walter D. Ehlers, Chillicothe, Ill.; Mrs. L. E. Funk, Windsor; Albert B. Allgaier, Ottumwa; Mrs. Vernon Simpson and daughters, Knob Noster; Mrs. Fred Busker and son, 1229 South Stewart.

• Fires In City

The Sedalia Fire Department was called to 901 South Moniteau, the residence of James Hayden where an iron cord had shorted, causing slight damage. The alarm was received at 10:59 a.m. Tuesday.

Two false alarms were received by the Sedalia Fire Department Tuesday afternoon.

The person turning in both alarms had what was described by firemen as a "childlike voice."

In the first call, turned in at about 2:30 p.m., the caller would not give the location of the "fire," replying that the fire "is right here." The second alarm, about five minutes later, was to 1700 South Engineer, where there was no fire.

• Accidents

A three-car accident of a minor nature occurred about 4:57 p.m. Tuesday at Broadway and Massachusetts.

All three vehicles involved were south-bound on Massachusetts. They were a 1949 GMC truck driven by Richard P. Coats, 33, 1223 East Ninth; a 1950 DeSoto driven by John T. Stanton, 45, 2201 South Martin; and a 1949 Dodge driven by Viola Belle Eckles, 55, 1301 East 15th.

Mrs. Eckles complained of back injuries. No one else reportedly was injured.

Coats received a police summons for careless and reckless driving, according to the report.

The front of the truck, the rear and front of the DeSoto and the rear of the Dodge were damaged.

A farm tractor and truck were involved in a highway accident about seven miles north of Sedalia on U.S. 65 about 4:45 p.m. Tuesday. No one was injured.

The tractor, a 1948 Farmall, was driven by R. A. Ream, 54, Hughesville, Dennis L. Arnold, 16, Conway, Mo., was driver of the truck, a 1958 International.

The truck was approaching the tractor from behind as the tractor, pulling corn spraying apparatus, entered the approach of a bridge. The truck slowed, but was forced to pass the tractor, colliding with the spraying equipment. Trooper Richard Joos of the Highway Patrol said.

The corn sprayer and right front of the truck were damaged. Both machines left the scene under their own power.

• Police Reports

John Hendrix, Whiteman AFB, reported Tuesday afternoon that someone took four hubcaps off his car while the car was parked at the National Guard Armory in Sedalia.

W. W. Blasingame, 217 South Moniteau, reported Wednesday that someone took a grass sling and a garden hoe out of his yard.

• Police Court

John Doe (this name was used because police were unable to trace the license plate) charged with parking in a loading zone, failed to appear and the \$2 bond was ordered forfeited.

The case of A. V. Pressley, 600 South Washington, charged with being drunk and disturbing the peace, and with indecent exposure, was continued to July 15.

Ted Frederick Gerber, Whiteman AFB, charged with attempted petit larceny, being drunk and making a left turn at Third and Ohio, pleaded guilty to making the turn and was fined \$5. The charge of being drunk and attempted petit larceny was continued to July 22.

matter of fact

The honeymoon is an old custom of northern Europe. For a month after the wedding, newlyweds toasted one another's health with mead, a wine made of honey. From this custom comes our word "honeymoon" — a combination of the "honey" the couple drank, and the "moon," or month, they drank it. After a month's sweetness, the couple settled down. Honeymoon was over.

French Boy Killed On Fire Truck Run

ANGOULEME, France (AP) — Like any boy, 12-year-old Jacques Ducloux loved fire engines.

Tuesday the firemen took Jacques along to a brush fire. It was the biggest thrill of his life.

Returning to the fire station, the engine missed a curve and smashed a tree.

Six firemen were injured. Jacques was killed.

Bid Call

(Continued from Page One)

in the heating system at Mark Twain School, and that the correction will cost a little more than \$1,000. The board felt that as the error was not the fault of the board, the architect should pay the difference. Sanford explained that to make the correction now would cost only about \$50 more than it would have cost if the omission had been included in the original contract.

After considerable discussion, Mary Studer, a board member, moved that the board pay half the cost, about \$500, and the architect pay the remaining half. Sanford agreed and the board approved Mrs. Studer's move. It was also agreed to spend about \$250 for improvements recommended by Charles McNeely, custodian of buildings and grounds, that are not connected in any way with the contract.

At the meeting the board opened bids for furniture for the six new classrooms being added to the Smith - Cotton High School building, and turned the bids over to the administration department for tabulation as to type and cost. The board deferred the decision on a contract until the tabulation is made and studied.

Superintendent Thomas J. Norris presented the school district's financial statement to the board and it was approved. The board also voted to have the statement published in both Sedalia newspapers. The statement will appear in The Democrat-Capital before July 15.

The board approved the resignations of Forest Arnall, biology and track coach at Smith-Cotton High School, and Rosemary England, elementary teacher who signed her contract only last month. Arnall is accepting a position as coach at Grandview.

The board formally approved the letting of the contract for blacktopping at Mark Twain and Whittier to the Menefee Construction Co., for \$3,905. The board also authorized blacktopping the driveway areas at Whittier for \$1.25 per yard, which will probably not exceed \$100.

By unanimous vote the board accepted the offer of the W. A. Smith Motor Co. to furnish a Ford car for driver instruction during the next school year.

Urban

(Continued from Page One)

miles on the primary system and \$7,232,000 for 13.4 miles of urban system highways.

The Commission has obligated \$19,484,000 for 149.5 miles of right of way commitments on the interstate system, \$2,105,000 for 89.2 miles of right of way purchases on the primary system and \$5,668,000 on 23.8 miles of urban highway system right of ways.

Other improvements in this area include:

Henry County: Route 13—13.6 miles grading, bridging and paving from north of Clinton to St. Clair county; Route 7 — 0.8 mile from northwest of Clinton to present Route 13.

Saline: Route 65—3.8 miles paving from south of Marshall to Interstate Route 70; Interstate Route 70 — 10.3 miles grading, bridging, paving and signing from west of Davis Creek to west of Blackwater River; Interstate Route 70 — 5.8 miles grading, bridging, paving and signing from three miles east of Route 65 to Cooper County.

Morgan: Route 5—8 miles right of way acquisition from Route 52, at Versailles, to north of Gravois Mills; Route 52—2.1 miles right of way acquisition for the Versailles by-pass.

Major Cook Is Optimist Meet Speaker

Major W. E. Cook, information staff officer at Whiteman Air Force Base, gave an interesting talk at Optimist Club Tuesday noon at Bothwell Hotel on the missile program.

About a month ago, Major Cook stated, Whiteman AFB was selected as a support base of the Air Force's Minuteman missile and the selection was made known to this area through Senators and Congressmen from the state and district in Washington.

Major Cook explained that there was only one Minuteman base in existence at the present time and that the missiles are scattered all around the area, one as far away from the base as 150 miles. Whether any would be that far from Whiteman he did not know, he said.

There will be none completed for at least two years he said, and rumors that persist that missiles are already in place are untrue. Any holes on land anywhere are merely tests.

When the missiles are so scattered about it would not be possible, he said, to destroy but one, and even to destroy one it would take 52 enemy missiles. Some of the Minutemen will be mounted on railroad cars and travel about the country, being at no particular spot, and will be very hard to find. Others will be in the ground in concrete silos.

Whiteman, he said, will continue as a balanced base, with manned weapons as well as missiles. Except for the time when the construction is going on it will not make Whiteman larger, because the missiles will be in many different communities and there will be a security force with each missile.

Major Cook also showed a recent movie of the first Minuteman being fired.

Frank Mehl, program chairman, presented Major D. F. Menza, commander of the 16th MMS, Whiteman Air Force Base, who introduced the speaker.

The meeting was presided over by Joe Forsee, with invocation by Lee Deason. Gerald Cecil led the singing with Mildred Reed at the piano.

Forsee then presented an Optimist plaque to Jay Lazerson for his work as president of the club during the past year.

A plaque, on which was the Optimist emblem and Optimist creed, was presented to LeRoy Wells, owner of LeRoy's, who donated his place of business and all profits for the day one Sunday recently for the boys work fund of the club.

The secretary - treasurer lapel pin was presented by Gerald Cecil to the new secretary-treasurer, Fred Arbogast.

Bill Steele was introduced as a guest of Harold Silberstein.

Bob Beykirk, chairman of the fireworks stand stated that the stand was a success with a profit of more than \$600.

Seek Crash Cause

Investigators Rummaging Through Plane's Wreckage

DENVER (AP)—Federal investigators rummaged through the torn skeleton of a United Air Lines DC8 jetliner today to learn the exact cause of Tuesday's crash landing and fire in which 17 persons died.

The huge plane en route to Los Angeles from Philadelphia touched the runway, veered sideways and burst into flames.

Of the 122 aboard, 18 persons escaped injury in the holocaust. Fifty others went to Denver hospitals. The other 56 aboard, including the crew of 7, escaped serious injury.

Four of the dead were members of the family of Dr. Earl Guyer, clinical psychologist at the U.S. Veterans Hospital at Fort Lyons, Colo. His wife and three small daughters died. Guyer had come to Denver to meet them at the airport.

A civil engineer, Henry Blom, 52, driving a survey truck for the city, was killed when the big plane swerved off the runway and crushed the truck.

In addition to Blom, 16 plane passengers died. They included five men, seven women and four children.

The plane, on Flight 859, had earlier made stops in Chicago and Omaha.

Passengers said they were alerted by the pilot, Capt. John Grosso of Denver, 10 minutes before the crash that something was the matter with the hydraulics system, an important element in the brakes.

There was a strange mixture of quiet calm and anguished desperation when the plane touched the runway, then skidded off, crossed 100 yards of field and burst into huge billows of flame when the landing gear crumpled on the protruding strip of a concrete taxiway being constructed nearby.

John Byrne of Omaha, a surviving passenger, escaped from the jetliner unaware that anyone had been hurt. But Lyle Oreck, 66, Phoenix, Ariz., said it was "horrible, horrible."

Byrne said a stewardess sitting alongside him got the door open immediately and helped passengers escape. Sally Whipple, 47, La Jolla, Calif., also praised an unidentified stewardess.

"I don't know who she was," Mrs. Whipple said, "but she stayed in the plane pushing passengers down the escape chute and ignoring the fire in her clothing."

Joe Throsky, a UAL mechanic, was among the first to reach the burning plane. Passengers said he saved several lives as he ran into the flames, helping the injured out.

A vice president of Stanley Aviation Corp. of Denver, J. L. Ryan, said, "I just happened to look out of the personnel office when I saw the plane come in. Either it lost part of its right landing gear or blew its right tires."

"It hit the runway and did an 180-degree turn. Dirt rose at least 70 feet high, then I saw flames soar above the dirt."

One of the four stewardesses aboard, Miss Patricia Ann Eberhardt, 21, Denver, said, "I had a terrible feeling I wasn't going to come out of it" but she remained at her post, helping passengers to safety.

A temporary morgue was set up in the gymnasium of Smiley Junior High School nearby. A half dozen priests gave final rites.

When the landing gear of the plane buckled under the impact of striking the protruding new taxiway, the right wing dipped and one of the wing tanks was ripped off, igniting the jet fuel.

In moments the left side of the sleek plane was burning with such intensity that it melted metal. The left midsection of the plane, from the rear of the pilot's compartment to the tail, was ripped and burned open.

One survivor, Maude Moon, 74, Knoxville, Iowa, said "I saw a hole in the door and I jumped through it."

Another survivor, Miss Eva Herschel, 64, Cedar Rapids, Iowa, was traveling with Miss Ethel Pirie, 67, also of Cedar Rapids.

"Miss Pirie got out first," Miss Herschel said. "I think we were the last two out of the plane. She jumped and then I jumped. I was wearing gloves or I might have been burned worse. I'm just lucky to be alive."

Dark-haired Females Get Fashion Nod

By JEAN SPRAIN WILSON
Associated Press Fashion Writer

NEW YORK (AP)—Gentlemen may prefer blondes but gentlemen designers on the whole favor tall raven-haired females to enhance the exotic hues and classic lines of their winter fashions.

The more than 200 members of the nation's fashion press (at least half of whom are light-tressed ladies) heard the bad news Monday at an early session of New York Couture Group.

As a panacea, a cosmetics company announced a new product soon to be marketed which will fashionably temporarily darken crowning glories, and add brown highlights to already black tresses.

Then, as if to drive home the point, stylists Paul Parnes, Marquis, and Harvey Berin spent the afternoon lining the runway with models in dull greens, deep grape and wine, burnt orange, mustard yellows, and blue red hues, which are definitely more flattering to brunettes.

Fur hemlines tickled the knees of models displaying the classic conservative dress and suit collection of Paul Parnes. His dresses in quiet checks and plaids were bias cut, often sewn together diagonally. Waistlines were wrapped, or subtly bloused.

Mink, dyed navy blue, was worked into a finger-tip length jacket by Paul Parnes which fits into the fur story from Paris heard by women reporters at a noon session.

Mink, bleached, and cut into diminutive pelts and sewn together again like a parquet floor, made a comeback.

West Europe Must Keep Strong Hold

PARIS (AP)—French Foreign Minister Maurice Couve de Murville said Tuesday Western Europe must adopt a position of strength in the face of the looming crisis over Berlin.

He said the Berlin problem will most likely be discussed when the chiefs of government of the six European Common Market nations meet in Bonn, July 18.

Rotarians Hear Talk On Moscow

The Rev. John L. Moad, Baptist minister of Kansas City presented an illustrated lecture on Russia at the regular meeting of the Sedalia Rotary Club Monday noon at Hotel Bothwell.

The lecture concerned a visit to Moscow which the speaker made in 1959.

Rev. Moad was born and reared in Sedalia and is minister of the Bales Baptist church in Kansas City. During the past year he was president of the Northeast Ministerial Alliance. His parents, Mr. and Mrs. David Gordon Moad, reside here at 607 West Sixth Street.

The speaker was presented by C. Foster Scotten, July program chairman.

Guests introduced by Ted Gaurert were: Dr. J. W. Boger, uncle of the speaker, who was the guest of Foster Scotten; George Chambers, guest of Oscar De Wolf and Anthony Walch, guest of his father, H. W. Walch.

Elmer McClung, president presided. Aubrey Case served as song leader with Miss Mildred Reed as piano accompanist.

FOR BUILDING FUND. Jerry Brown (left), presents a check for \$175.63 to J. B. Woodward, chairman of the Gasoline Committee of VFW Post 2591. This check presents the profit made at Brown's South Highway 65 service station for July 8-9. Brown donated the profits to the new VFW post for their building fund. (Democrat-Capital photo)

Increases In Toll May Begin August 1

WICHITA, Kan. (AP)—Toll hikes on the Kansas Turnpike—the first since it was opened Nov. 23, 1956—are scheduled tentatively to become effective Aug. 1.

Included in the new rate schedule are increases of 5 to 45 cents for private autos.

For commercial vehicles, the increase is a flat 5 per cent to the nearest nickel.

For the full length of the tollway, the hike for autos is 45 cents—from \$3.80 to \$4.25.

The increases were proposed by the authority June 12 to boost turnpike earnings. Except for a few scattered months, earnings have not covered interest on the bonded debt.

Screen Guild Won't Dig Into Chandler Death

HOLLYWOOD (AP)—The Screen Actors Guild says it won't investigate the death of actor Jeff Chandler. Such an inquiry, it said Monday, would serve "no useful purpose."

Chandler, 42, died June 17 in a Culver City hospital after four operations. The initial surgery was for a slipped spinal disc.

Actors and actresses had petitioned the Guild's board of directors to look into circumstances surrounding Chandler's death.

The directors pledged cooperation with the State Bureau of Hospitals, which recently completed an investigation at the hospital. Attorney Edward Rose, special administrator of the Chandler estate, is also making an inquiry.

Dr. Moore to Offer Self As Space Lady

LONDON (AP)—Dr. Barbara Moore, 56, Russian-born long distance walker, said Tuesday she plans to offer her services to the Soviet embassy as the world's first space woman.

"I am very strong and healthy," she told newsmen, "and I can go without food and drink for a long

Bill Would Provide Pension for Heroes

WASHINGTON (AP)—The Senate passed legislation Tuesday to permit Medal of Honor holders to begin drawing a \$100 a month pension at the age of 50. At present, a \$10 a month pension is available to them at age 65.

The bill now goes back to the House which had passed a measure providing a \$100 a month pension but stipulating that it would be available to medal holders at any age.

Won't Push Action On South Africa

UNITED NATIONS, N.Y. (AP)—The African group in the United Nations Tuesday decided not to press now for any Security Council action against South Africa in an attempt to gain entry for a special U.N. inquiry group to South West Africa.

Michel Collet, deputy chief of the Guinea delegation and chairman of the group for July, said the African delegations deplored South Africa's refusal to admit the group.

OH, MY ACHING BACK

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. New, large size saves money. Get Doan's Pills today!

Investment in Liberty

Some of the emerging peoples are said to find communism a lure because they imagine they might do what Russia has done — rise from peasant poverty to industrial strength in less than half a century.

Yet we should not be totally downcast. For the largest underdeveloped nation on earth — India — is striving with all its will and energy to rise from misery by democratic means.

Our own stake in this huge effort is great. We can hardly be indifferent to the fate of 425 million people.

Americans cannot easily grasp the enormity of the task. Just to add 100 calories to the Indian's daily diet means adding five million tons of food grains a year. The average Indian today can expect earnings of about 15 cents a day, cradle to grave.

Three-fourths of India's people rely on agriculture for a living, but the country's acreage yields are two-thirds below those of hard-pressed Japan. Altogether, India's factories employ only 2.5 million persons — 1 in 200.

It takes India a full year to produce the gross national income the United States produces in three weeks.

To multiply India's difficulties, its population has soared 60 million in the past decade and goes on rising sharply.

All these matters notwithstanding, the 1951-61 span brought substantial progress, and much more is promised for the decade ahead. In the 1951-61 period, some \$22 billion was invested in the Indian economy. Five-sixths of it came from the Indians themselves.

With that investment national income was lifted 42 per cent, per capita income 20 per cent. Industrial output climbed in some fields. Land under irrigation rose from 51 million acres to 70 million. Village development programs made headway in 400,000 villages with some 200 million people. Thousands of miles of road and rail were built. Children in basic school rose to 60 per cent. Tens of thousands of schools were erected.

A new document, "Breakthrough," prepared with the aid of the Friends of India Committee and two U.S. firms, stresses anew that the next decade is the critical one. To get onto a self-sustaining plateau, which India very much desires, it must invest \$50 billion.

Remarkably, again, it plans to supply \$40 billion of this itself. What it wants in repayable assistance comes to around \$1 billion a year for at least the next five years.

If there are any valid arguments against this "investment in liberty" — India's own and the world's, too — they should be quickly stated. For time does not run with dawdlers.

"All Ready for the Fireside Chat, Mr. President"

The World Today

Too Soon to Tell About Dean Rusk

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—The one thing above all others which distinguishes Secretary of State Dean Rusk from his famous predecessor, John Foster Dulles, is his quiet, almost academic, tone.

It is too soon to even guess at whether Rusk will be a successful secretary because so far he has traveled pretty much within the shadow of President Kennedy, letting him make the tough statements, and the big ones.

It also is too soon to know whether this is the way Rusk prefers to operate or whether Kennedy requires it. But what's true of Rusk so far has been true of all of Kennedy's cabinet officers. The President does the main talking.

From the very beginning Dulles asserted himself in positive, and even belligerent, tones. In this he apparently had the full approval and confidence of President Eisenhower. Dulles was foreign policy.

He was in office only seven days when, on Jan. 27, 1953, he made a nationwide TV talk which was flamboyant, harsh and in a very real sense undiplomatic. These qualities showed up repeatedly for the rest of his time in office.

They seemed not so much a reflection of his personality as the expression of a clearly thought-out philosophy in running foreign affairs.

Dulles made headlines in his time with far-fetched statements — like "massive retaliation" and skidding around the brink of war. But after watching the present secretary for almost six months this writer can't think of a single Rusk statement that has become identified with his name.

Rusk provided a pretty good insight into his day-by-day conduct — or so it could be interpreted — with the statement he made this week before an audience in the National Press Club.

It was, pretty much, typical of all his statements so far. He chastised the Communist world for keeping the trouble pot

Looking Backward...

TWENTY-FIVE YEARS AGO

Among Sedalians and area students who are candidates for degrees at the summer session commencement exercises of the University of Missouri, Columbia, the night of July 31, are: Alonzo Hayes Wilks, Jr., of Sedalia, Bachelor of Arts degree; Arnel H. S. Opp, of Smithton, Bachelor of Science in Public Administration; Amelius Brandt Ridgway, of Sedalia, Bachelor of Journalism; Perry Leonard Bidstrup, of Beaman, Master of Arts degree.

FORTY YEARS AGO

The Pettis County Court House Commission decided to call a special election for the voters of Pettis county to vote upon the proposition of issuing bonds to the extent of \$400,000 for the erection of a new court house building. The ruins of the old building would be sold to the contractors or disposed of in the best manner available.

The Mature Parent

Let Child Know Virtue Is Not Always Rewarded

By Mrs. Muriel Lawrence
One month Greg got a D in arithmetic. It shocked him so that he stopped jumping over home-

work examples he couldn't immediately solve. Next report he got a B for his month's work; and on his test paper found his teacher's comment: "This work shows good improvement."

When he showed these achievements to his mother, she kissed him and said, "That must make you feel nice." Later, to their display, his father merely smiled and said, "Want to drive downtown with me to pick up my engineering magazine?"

Nobody rewarded Greg with praise for his industry. Nobody promised to take him to the circus for his steadfastness or paid him a dollar for it. Nobody suggested in any way that earthly reward always results from virtue, though Greg's parents always are surprising him with gifts of delight in him like a new pen, a box of crayons, a small glass rooster for his bookshelf.

I don't think much either of always rewarding children for virtue.

Parents who feel compelled to produce circus tickets, money and other rewards for a child's industry, helpfulness and other virtues create, I think, an expectation that is unjustified.

The world does not always reward us for moral performance. A brave young man volunteers for military service — and is turned into a paraplegic. We can spend years working for an employer in the hope that he will reward us with promotion — and find that it's the other fellow who has been promoted instead. We can sacrifice our need for dental care to send Jimmy to summer camp — and lose two teeth instead of gaining Jimmy's devotion. We can spend our whole lives putting on the most virtuous performances only to become sick with depression or rage at the realization that we are not going to be rewarded.

As the man said, "Virtue is its own reward."

Unfortunately the phrase is so hackneyed few of us ever ponder it. Parents should. We have no right whatever to suggest to children that reward always follows virtue. This is not a moral law as Jesus told us when he said "Great is your reward in heaven."

So we'd better stop confusing earth with heaven for children. Because in adulthood they can become furious with us as they begin to discover the truth: that we cannot always wait for others to reward our virtue but have to learn how to reward it ourselves. They justly accuse us of sentimentality and misdirection.

Recommendations for revising procedures.

ANTI - STRIKE BREAKING ACT: Died in the House.

Rollings recommended a statute prohibiting so-called "strike-breaking" similar to a Pennsylvania law.

KING - THOMPSON REPEAL: Voted down in the House.

Rollings recommended the law which prevents strikes in public utilities be repealed. No repeal was introduced but a measure taking out transit workers was proposed.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

Governor Urges Unity On Gas Tax Plan

Gov. John M. Dalton has added his voice to those urging unity of effort in behalf of a plan for sharing a two cent increase in the state gasoline tax with the state highway department, cities and counties.

AFL-CIO Program Flops In Assembly

The legislative suggestions of the state AFL-CIO as put forth by John I. Rollings, president of the Missouri State Labor Council, flopped in the 71st General Assembly, practically in their entirety.

Rollings outlined his suggestions before a between-sessions House-Senate Committee in St. Louis last Fall. The committee was headed by Rep. Thomas A. Walsh, (D., St. Louis City), who is himself a state union labor leader.

Here is the outcome: STATE MINIMUM WAGE LAW: Killed on the House floor. Rollings recommendation was for \$1 an hour.

UNEMPLOYMENT COMPENSATION: A \$7 increase in maximum weekly benefits was enacted.

Rollings recommended a maximum benefit ceiling formula of 50 per cent of average weekly wages. This recommendation reached the Senate floor where it failed. Recommended also was an advisory council on unemployment compensation. Nothing came of this.

TEMPORARY DISABILITY INSURANCE: Died in committee in an apparent trade for the \$7 increase in maximum weekly unemployment benefits.

Rollings had recommended that the General Assembly consider passage of a temporary disability law patterned after some other states.

EXCLUSIVE STATE WORKMEN'S COMPENSATION FUND LAW: Not even introduced.

Recommended was a fund law similar to the Missouri Employment Security Fund.

Rollings also recommended that exemptions be reduced from the present 11 employees to at most four in the workmen's compensation law. No action was instigated. The same holds true for another recommendation on the matter for a flexible maximum benefit ceiling which could provide a worker with not in excess of two-thirds of his earnings.

DIVISION OF INDUSTRIAL INSPECTION: Nothing enacted. Rollings had several recom-

The Doctor's Mailbag

No Relationship Between 'Iodide' and True Mumps

By Harold Thomas Hyman, M.D.

Q — Is it true that mumps can be caused by iodine?

A — Iodides (not iodine) may cause enlargement of the mumps and other glands. True mumps (epidemic parotitis) is a virus infection that has much more far-reaching consequences than most folks believe.

There is no relationship between "iodide mumps" and epidemic parotitis.

That is to say, iodide mumps will not be followed by an immunity to the virus infection.

However, there is a mumps preventive vaccine that is gaining increasing popularity with pediatricians.

Q — I am 43 years old and since I was a girl of 14 I've suffered from extreme drowsiness.

I was reared on a farm in Colorado where horses died of sleeping sickness during the 1930s. At that time, we did not know the disease was transmissible to humans, so we nursed our own horses during their illnesses.

Now while my general health is good I've never gotten over this drowsiness that seems to persist despite everything my doctors have done for me.

I read your article on equine encephalitis and recognized that this is the form of sleeping sickness from which our horses died and from which I suffer. You said also that it is transmitted by certain types of mosquito.

What worries me is the possibility that I may still be a carrier and that if a mosquito bites me it may carry the virus to someone else. Is there any way I can have my blood tested?

A — While it is unlikely that you continue to be a carrier after all these years, your point is well taken. The tests you require are very difficult to carry out. I would suggest that you contact your local health officer, who will undoubtedly refer you to the nearest facility operated by the U. S. Public Health Service.

I would greatly appreciate learning the results of your tests.

Q — What causes an excess amount of phlegm in the throat of a 15-year-old boy? He cannot clear his throat and you can tell by his voice that his throat is never clear. He had his tonsils removed about a year ago and this did not help at all.

He sleeps with his mouth open and has difficulty breathing through his nose. What type of doctor should I take him to?

A — I have emphasized on many occasions the necessity for removing adenoid tissue from the

vault of the nose at the time of tonsillectomy.

From your description, I suspect that only the tonsils were removed at the time of operation and that the residual mass of adenoid tissue blocks the back of the nose and drips secretion down the back of the boy's throat and onto his vocal cords.

Take him back to the surgeon who operated on him and see if he won't complete the operative procedure.

Bingo In England

By ARTHUR WEBB
(DPA Special Service)

LONDON—Bingo has landed in Britain at last after years of shuttling across the Atlantic on ships. But only now has it succeeded in passing the customs at Southampton.

It has long been banned on British soil—but not on British ships, and for decades was the most popular game on the Cunarders.

But Bingo jackpots, like slot machines, were outlawed once the ship docked.

Now Britain, having decided that you cannot stop gambling by Act of Parliament, has rewritten all of its betting laws. And so Bingo slipped in by the back door, as ready money betting on races was legalized and customers were asked to step up to the counter in betting shops.

There is every sign that Bingo will be as big a craze as another American invader — the bowling alley. Both are proving money makers for the theater circuits which had been closing down after losing half their weekly customers to television. Some cinema chains which had already converted into bowling alleys, are now staging Bingo games during the morning and afternoon.

Already over a million have caught the Bingo bug. Four out of five are women. And most of these are over forty. Mothers whose children are growing up join merry widows in the numbers game more for the companionship than the prize money. They love a chance to meet old friends for a little backgarden gossip. Many even bring their knitting along.

Bingo is causing a social revolution in many small towns and suburbs for it has proved an attraction to the housewives who could not be induced to sit down to a bridge table.

Washington Merry-Go-Round

Ezra Benson Made Travel Record

By DREW PEARSON

WASHINGTON — Good old Ezra Taft Benson, whom everybody liked except the farmers, has gone back to Salt Lake City leaving an interesting record on the books of the Agriculture Department. It's not a farm record, but a travel record.

The former Secretary of Agriculture, charged with watching over the farmer's welfare from Maine to California, actually spent as much time traveling abroad in his latter term as John Foster Dulles. His Mormon ancestors, who chalked up notable history in traveling at a period when getting around was a little tougher, were pikers compared with the junkets of Ezra, at the taxpayers' expense, to 68 countries, plus 26 trips to his hometown, Salt Lake City.

All were on "official business." And, in addition to taking along his family, plus in-laws, Benson also took with him on two foreign junkets a prominent member of the John Birch Society — Thomas J. Anderson, publisher of the Farm and Ranch magazine. The "Bible" of the John Birch Society states that President Eisenhower is a communist, also Milton Eisenhower and John Foster Dulles; and that Chief Justice Earl Warren should be impeached. Apparently the friend who accompanied the staunch member of the Eisenhower cabinet on two prolonged foreign junkets has views not too far from those of the Birch Bible.

Communist Controlled Press

Interviewed on the "Open End" TV program by David Susskind, April 23, Anderson gave these interesting statements in reply to questions:

Susskind — "Do you believe that Chief Justice Warren should be impeached?"

Anderson — "Absolutely."

Susskind — "Do you believe that the United Nations is a communist plot and is working to the bad interests of our country?"

Anderson — "Next to the communists, I think it is our greatest enemy."

Susskind — "The UN?"

Anderson — "Yes sir."

Susskind — "Why?"

Anderson — "I do not believe in co-existence. It is as nonsensical as fried snowballs."

Susskind — "Do you really believe that the press, radio, and television, in America is communist-controlled?"

Anderson — "I believe there is a great deal of truth in that."

Despite these views, the great economist of the Ike cabinet took Anderson with him on two trips in MATS (Military Air Transport Service) planes which cost the Department

of Agriculture around \$79,000. As an individual flying on commercial lines, the trip would have cost Anderson about \$3,100.

Scrutiny of Agriculture Department records shows that Bensons so-called "official trips" cost the taxpayers a total of \$194,642.16; and leads to some bewilderment as to how much time Benson could have spent looking after the interests of American farmers.

Amazing Travel Record

In addition to the 26 official trips to his hometown at taxpayers' expense, Benson also made 13 trips to Salt Lake City at his own expense. There were 173 other domestic trips to various parts of the United States and Canada, charged to the taxpayer.

However, the most interesting entries in this fantastic, taxpayer-financed travelog are two foreign trips, one to Europe from Sept. 23 to Oct. 9, 1959, and the other to the Far East from Nov. 10 to 28, 1960. Transportation in both cases was provided free by a government MATS airplane, and on both trips Benson took with him not only a hefty delegation of his own relatives, but his Birchite friend, Thomas J. Anderson, listed officially on the MATS manifest as a "news correspondent."

Besides Anderson, those invited by Benson on the 1959 overseas trip included Mrs. Ezra Benson, and two daughters, Bonnie and Beverly. They toured Germany, Poland, Russia, Finland, Sweden, and Norway.

Anderson also accompanied Benson on the 1960 junket to the Far East on a MATS plane. This time the passenger list included four Benson relatives — his wife, daughter Beverly, another daughter, Barbara, and her husband, Dr. Robert H. Walker of Calgary, Canada.

They visited Hawaii, Japan, Formosa, the Philippines, Australia, and New Zealand.

Headlines and Footnotes

West Point has now substituted the snitch system for the honor system, thus adopting the Soviet practice of having cadets report to their superiors on each other's personality traits, study habits, military bearing, and, of course, misconduct. What's more, the snitching on each cadet is coded on IBM machines for reader reference.

Think It Through

By E. F. HUTTON

POLITICAL PHARISEES — A score of companies manufacturing electrical equipment violated the anti-trust law by conspiring to fix prices and prevent competitive bidding. They were caught at it, and either admitted or refused to deny their guilt. They have been punished.

The anti-trust law is the principal foundation of our competitive free enterprise system, and there is no excuse for those who violate it.

But what is sauce for the goose should be sauce for the gander. However, the law which punishes geese (as these men were), actually protects the ganders. There is no "equality before the law" with respect to monopolies that restrain trade.

As the New York DAILY NEWS, America's largest circulation newspaper, says: "But why shouldn't labor leaders, with their monopoly powers over wages and working conditions, and their ability to rabbit-punch our whole economy or important sections of it with unjustified strikes and secondary boycotts, be subject to the same restrictions as is big business?"

Why not, indeed?

A few hundred tug boatmen in New York Harbor truck over a question of feather-bedding; they picketed railroad stations, and for several days practically shut down two railroads. Tens of thousands of people (including labor union members) could not work.

The losses of the public probably exceeded the total fines levied against the electric companies several times over.

But did any public official from the White House on down, say: This has got to stop? No. Not one!

Thought for Today

I cry aloud to the Lord, and he answers me from his holy hill. — Psalms 3:4.

Who rises from prayer a better man, his prayer is answered.—George Meredith.

Headlines Pull Markets In Opposite Directions

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—Front-page headlines pull the stock market in opposite directions these days. The tug of war adds to the problems of business planners and multiplies the worries of big and little investors alike as they try to guess which stocks are going which way.

And the consumer, too, can't be sure but what all the warlike alarms sounded on the front pages won't upset his own plans. So he also turns cautious.

In dollars and cents there seems to be one fairly safe prediction of what the headlines from Washington, Moscow and Berlin mean: Defense spending will go up. So, too, will the U.S. Treasury deficit. And fears of further inflation will be weighed by both stock traders and consumers.

Increased government spending will help some companies with new orders, and some workers with longer work weeks or more job opportunities.

Stocks of companies which seem likely to benefit already are attracting the attention of stock market professionals. Companies which won't benefit will look less attractive by comparison.

Here are some of the front-page items that business and the stock market are trying to assess:

The Berlin crisis has upset the market. War talk always does.

While defense spending helps many companies, armed conflict upsets the financial applicability of countless more.

The charge that the American economy is being bolstered large-

ly by defense spending now, and that disarmament would undermine it, is denied by Adlai E. Stevenson, chief U.S. representative at the United Nations.

He tells the United Nations Economic and Social Council meeting in Geneva that a disarmament pact would help the U.S. economy. Then he could turn "our resources from production of instruments of death to the production of the manifold things we need for a better life."

When former President Dwight D. Eisenhower left office he asked for a defense budget of \$41 billion in the fiscal year that has just now started. Disturbing world news has twice led President Kennedy to raise that estimate. He now asks \$43.4 billion in new military appropriations.

Citing this as an excuse, Soviet Premier Khrushchev has just announced the Soviet Union is raising its military spending by one-third.

The official estimate that the Treasury would end this fiscal year \$3.7 billion in the red was already widely held to be an under-statement. Many think the already rapidly rising spending plans would mean a deficit of \$4 to \$5 billion.

If defense appropriations are hiked still further, its only a guess how much more the Treasury will have to borrow to meet the bills.

The stock market and the bond market will quickly take note. Business executives may revamp some of their planning, too. In time it could affect all of us.

Hal Boyle's Column

Oldsters Feel Bit Sorry For Generation of Youth

By HAL BOYLE

NEW YORK (AP)—Some say this is the best time to be young. Some say there never was a worse time.

But life is a mosaic of many memories, and any youngster of today, by coming along so late, by the nature of things will have missed a lot of what went before.

Many a man or woman, middle-aged or older, feels a bit sorry for young folks who can't remember when—

You could buy a white shirt for a dollar bill.

No child dared to call its father or mother "stupid" or "silly."

Anybody who went up in an airplane and came down safely got his picture in the newspapers.

A child's biggest thrill was to be lifted to the back of one of the big gray horses in the local fire station.

Everyone over 60 foretold the weather by his rheumatism. (Only the very rich could afford doctors who called it arthritis.)

Dogs slept outdoors at night—and there wasn't one in the whole broad land whose owner had bought it a mink blanket.

When a fellow found it hard to read the small print in the mail order catalogue, he went to the dime store, pawed through its display of spectacles—and bought the pair he could see with best.

If you lived beyond your means, the neighbors clucked and said, "over the hill to the poorhouse."

The proudest kid in the block was the one with the most warts.

Nobody had heard of government relief checks. Families were expected to look after their own poor relatives.

Big babies were thought healthier than small babies. Any man who fathered one that weighed less than 8½ pounds at birth apologized to his friends.

Fat people were thought to be happier—and likely to live longer—than thin people.

If you had a second helping at dinner, the beaming hostess took it as a personal compliment to her cooking. She had no idea you were eating to camouflage a hidden neurosis.

Anybody who could imitate bird calls or play a musical saw had an artistic future in vaudeville.

More people worried about constipation than cancer.

In baseball a home run was really something to see. (Franklin F. Baker led the American League in homers from 1911 through 1914. His total for the four years: only 39.)

Say Conditions Worst Ever

AL Disgruntled With Windy Park

SAN FRANCISCO (AP) — Dis-touch third base on his way home started American League All Stars, glad to have escaped wind-ravaged Candlestick Park without having been swept into San Francisco Bay, agreed today the playing conditions were the worst they had ever encountered.

Maybe their 5-4 10-inning defeat Tuesday by the Nationals had something to do with it.

Roger Maris, the New York muscle man who leads both majors with his 33 home runs, and Rocky Colavito, Detroit's fence-buster, were the most outspoken of the players who felt the main trouble with Candlestick Park was that it was built alongside the bay instead of under it. Even the triumphant National Leaguers had nothing but unkind words to say of the Giants' home grounds.

For seven innings, Candlestick Park's heralded wind was only a myth as far as the players and the 44,115 customers were concerned. Consequently, it was a contest of finesse, dignity and occasional brilliance. With Milwaukee's Warren Spahn perfect and Cincinnati's Bob Purkey near-perfect, and Pittsburgh's Roberto Clemente leading the attack against New York's Whitey Ford and Washington's Dick Donovan with a triple and sacrifice fly, the Nationals surged into a 2-0 lead after the fourth.

The Americans got one run back in the sixth when Minnesota's Harmon Killebrew slammed a home run, their first hit, off Giant southpaw Mike McCormick. That's the way things stood until the eighth when the wind, like a smirking villain waiting in the wings, suddenly came swirling from the bay to bedevil the pitchers, fielders, batters and even the umpires and turn an unspectacular but uniformly played game into a spectacle.

In the last three innings, the All Stars committed five of the game's seven errors. In addition, San Francisco pitcher Stu Miller was charged with a walk, New York catcher Elston Howard was guilty of a passed ball and Cincinnati outfielder Frank Robinson was hit by a pitch. As if that wasn't enough to make the record turnout here wonder whether they were watching little instead of big leaguers, a National Leaguer (shortstop Maury Wills) was guilty of interfering with runner Nellie Fox in the ninth and Fox himself was accused of failing to

worst playing fields in the major leagues but he declined to use it as an alibi.

"The winds were just as bad for one club as for the other," he said.

Richards' players were not as charitable.

"If I had to play here all the time," growled Maris, "I'd quit. Sure we play for money but when the fun goes out of it, I don't see how it would be worth it."

Colavito just about echoed Maris' sentiments:

"If I'm ever traded to the Giants," he said, "I think I'd be the longest holdout in history."

Wilhelm, the losing pitcher, said the wind was constantly blowing on his back and affected his pitching.

Howard, who went behind the plate to catch Wilhelm, only to be charged with a passed ball when he failed to stop a floating pitch, remarked: "I've never seen anything like this. How can anybody play in a park like this?"

Even the National Leaguers had some uncomplimentary things to say about the wind.

"I thought a couple of pitches were coming back in my face," said Miller, who fanned four batters in the ninth and tenth to gain credit for the victory. "The wind was as bad as I've ever pitched in here. I'd start to wind up and the wind was blowing so hard it was hard to keep my balance on the pivot."

Manager Paul Richards of the American League said the winds made Candlestick Park one of the

Is Out to Beat Medalist Jinx In Public Links

DETROIT (AP) — Dick Sikes, 21, of Springdale, Ark., a gangling ex-caddy who shoulders his own golf bag, today steps out to beat the medalist jinx in the 36th National Public Links Tournament.

Sikes, captain of the University of Arkansas golf team, but registering out of Wichita, captured medalist honors Tuesday over the Rackham course. He knocked a total of 5 strokes off par with a 70-65-135.

Dave Bettencourt, 40, Honolulu stevedore foreman, was second with 72-65-137. John Schlee, 22, Memphis State junior, who lives in Seaside, Ore., was next with 68-70-138.

Among those failing to get under the cutoff barrier of 150 was defending champion Verne Callison, Sacramento, Calif., tavern owner, with 79-72-151.

Only twice in the tournament's history, 1929 and 1947, has the medalist gone on to win the championship.

A double-round today will slice the match play brackets of 64 to 16. Two more rounds Friday will set up the 36-hole semifinals, leading to Saturday's 36-hole title showdown.

Local Team Third In Inter - City

The Sedalia women's inter-city golf team collected 219 points and finished third in the final contest held Tuesday at the Sedalia Country Club. The local golfers were unable to close the gap which left them only 8½ points behind second place Jefferson City in the day's standings and 27 points behind in total standings. In the overall tournament Columbia finished first with 1137 points. Jefferson City took second with 839 points. Sedalia's third place points totaled 812, and Fulton had 668 points for fourth place.

Sue Faurot, Columbia, fired an 81 on the par-72 course and took medalist honors for the day. Joan Walker, Sedalia, tallied 32 points to win high point honors.

Margaret Anne Parker had the best score for Sedalia with a 44-43-87. Other Sedalia scores in history, 1929 and 1947, has the medalist gone on to win the championship. A double-round today will slice the match play brackets of 64 to 16. Two more rounds Friday will set up the 36-hole semifinals, leading to Saturday's 36-hole title showdown.

The group had coffee and rolls in the morning, and lunch at the club was served to about 50 golfers and scorers.

In a medal play tournament held at the club recently Marianna Pelham took highest honors with an 86. Hazel Brown and Margaret Anne Parker tied for second with 88's. It was an 18-hole contest.

Little LEAGUERS

Rotary topped Jaycee's by a score of 10-5 in the first game at Little League stadium Tuesday night. Herrick pitched a six hitter to get the victory. Ditzfield took the loss. Labelle of Roary hit a home run as did Murray of the Jaycee's.

Lions jumped off to a seven run lead in the first two innings and picked up another run in the fourth and one in the fifth to defeat Elks 10-6 in the second game at Little League stadium. Jack Rouchka allowed nine hits and was the winning pitcher. Don Lewellen was the losing pitcher and also allowed nine hits. Floyd Turner of Elks had a big night, getting three out of four at the plate and scoring three of the Elks' six runs.

Kiwanis walked over Optimist by a score of 11-5 in "A" team play at Housel Park Tuesday night. Garner of Optimist hit a home run, Goosen was the winning pitcher and Thomas picked up the loss.

Kiwanis defeated Optimist 20-10 in B-team play. Horner was the winning pitcher and Hogan the loser.

Optimist over Kiwanis 24-11 in C-team activity. Pringer was the winning pitcher, and Glavin was the loser.

Babe Ruth Tournament July 22-23 in Sedalia

The District All-Star Babe Ruth Tournament, originally scheduled for July 29-30, will be played July 22-23 on the Liberty Park diamond. Clinton, Buffalo, Boonville, and Sedalia's National and American League All-Stars will participate in the tournament. There will be a practice game Wednesday night between the National and American League All-Stars in order to prepare for the contest.

There were several exciting games played earlier this week. In Monday night's first game McCown Bros. bounced Western Auto 5-1. Winning pitcher John Miller fanned 12 men, walked three, and

allowed three hits. Only two men reached third against him. Losing hurler Hudson gave up nine hits. McCown committed no errors.

In the second game Gibbs pitched a fine no-hitter as Optimist whipped Rotary 10-3. Gibbs fanned a total of 15 men. Two of Rotary's runs scored when Optimist's catcher was unable to find a ball which scooted behind the plate. Reiger was given the loss.

In Tuesday night activity Jimmy Johnson pitched a one-hit shutout as Adco downed Browns 3-0. This made it seven victories in a row for Adco. Johnson struck out nine men and gave up three walks. Losing pitcher Bill Matthews fanned 11 men, and allowed only three hits and three walks.

Steve Young and Barry Lindquist shared pitching honors and helped McCown Bros. to a 4-0 shutout over Anderson in the second game. McCown collected three hits off losing hurler Ryan and committed no errors. The Anderson club had only one safety.

Chiefs Tied For Second In Standings

MOBERLY, Mo. (AP) — Three teams are fighting for the Central Missouri Ban Johnson League's Eastern Division pennant while Lowry City and Carrollton are pulling steadily away in the Central and Western division races.

Only one full game separates Hannibal (7-2), Jefferson City (7-3) and Columbia (6-3) in the Eastern Division.

Lowry City, winner of nine straight, has a four-game lead in the Central Division. Carrollton, with a 10-1 record, leads the Western Division by three games.

Thirteen games are scheduled through Sunday. Eastern — Mexico at Hannibal Wednesday; Columbia at Moberly Thursday; Hannibal at Jefferson City (2) and Mexico at Columbia Sunday.

Central — Tipton at Boonville Tuesday; Sweet Springs at Lowry City Friday; Sweet Springs at Sedalia and Lowry City at Boonville Sunday.

Western — Marshall at Carrollton Tuesday; Lexington at Richmond Wednesday; Richmond at Marshall and Lexington at Odessa Sunday.

How they stand:

Eastern Division		
	W	L
Hannibal	7	2
Jefferson City	7	3
Columbia	6	3
Moberly	2	8
Mexico	2	8

Central Division		
	W	L
Lowry City	9	0
Sedalia	5	4
Boonville	5	4
Tipton	4	5
Sweet Springs	0	10

Western Division		
	W	L
Carrollton	10	1
Richmond	6	3
Odessa	4	6
Marshall	3	5
Lexington	0	8

Carrollton 10 1 .909
Richmond 6 3 .667
Odessa 4 6 .400
Marshall 3 5 .375
Lexington 0 8 .000

Central Area Golfers Into Public Links

DETROIT (AP) — Two Kansans and a Missourian are among the 64 qualifiers for the National Public Links golf tournament.

Richard Sikes of Wichita won the medal in qualifying play Tuesday with 70-65-135, 5 under par for Detroit's Rackham course.

Sikes will meet Forrest Jones of Bloomington, Ind., in today's first round of the match play tournament. Jones qualified with 74-73-147.

Lamont Kaser of Wichita, who posted a qualifying score of 74-71-145, meets Gary Peterson, Minneapolis, 76-74-150.

Robert Reynolds of Normandy, Mo., faces Frank Campbell of Leeds, Ala. Reynolds qualified with a 76-72-148, Campbell with 72-70-142.

Pender Loses Fight; Ready To Go Home

LONDON (AP) — Paul Pender, deposed from his share of the world middleweight championship prepared today to go home to Boston to see his new baby daughter and start working to get back his title.

Terry Downes, 25, the battling Briton who served in the U.S. Marines, whipped him before 12,000 wildly cheering fans in Wembley Indoor Stadium Tuesday night. Pender retired with a cut over his left eye at the end of the ninth round.

There is an agreement for a return bout in America within 90 days. It is likely to be in Boston, but Downes' manager, Sam Burns said since both men suffered cuts there might be a slight delay.

Pender, 31, in his dressing room after the fight, scarcely had time to think about his defeat. The boxer from Brookline, Mass., was surrounded by friends congratulating him on the news that his wife had given birth to a daughter in Boston.

The news reached ringside half-way through the fight. Pender's seconds kept the news from him until the fight was over.

Fullmer is recognized as world

champion in most of the United States. The crown which Downes took from Pender is recognized in New York, Massachusetts and Europe.

Pender said he thought he was slower than when he beat Downes at Boston last January. Then it was Downes who retired with a cut nose after seven rounds.

Brothers Resitate To Reveal Drowning

PLEASANT HILL, Mo. (AP)—John David Hasenager Jr., 12, drowned in a farm pond Monday, but his parents did not learn of it until Tuesday afternoon.

John's two brothers, who had gone playing with him six miles southeast of Pleasant Hill, were too terrified to tell them at first. The boy fell into the pond from horseback. His body was recovered.

Cape Girardeau Teachers Given Pay Increases

CAPE GIRARDEAU, Mo. (AP)—Teachers in Cape Girardeau public schools are to be given a \$250 across-the-board wage increase.

The Board of Education took the action Tuesday.

The new range is from \$4,050 for a beginning teacher with a bachelor's degree to \$6,750 for a 16-year veteran with a master's degree plus 30 additional university hours.

The pay raise was made possible by legislative action in financing the school foundation program 100 per cent. The program had been in effect several years but never on a 100 per cent basis.

Cape Girardeau was one of the first cities to take advantage of the situation for a pay raise.

Protestant, Catholic and Jewish religious services will be held on the two Sundays of the 1961 Missouri State Fair—August 20 and August 27—at the Fairgrounds in Sedalia.

OUT OUR WAY

Million Dollar Sewage Bonds Given Approval

CAPE GIRARDEAU, Mo. (AP)—A \$1,598,000 bond issue has been approved by Cape Girardeau voters for a sewage disposal plant and a connection system with existing sewage lines.

Cape Girardeau has always dumped its waste matter into the Mississippi River. The Missouri Water Pollution Board ordered that practice halted.

The vote Tuesday passed the necessary two-thirds majority with more than 200 votes to spare.

Mayor Walter H. Ford said he would immediately put the machinery in motion to start sale of the bonds. They will be retired by a water use tax.

The proposal was narrowly defeated in a February election.

Some \$214,075 in premium money will be awarded to winners in 25 different competitions at the 1961 Missouri State Fair, beginning August 19 for nine days in Sedalia.

Young Marriages, Sniffer On Moon Are Science News

By THE ASSOCIATED PRESS

A look at love and marriage in the United States, a bloodhound on the moon and a new daylight camera for planets.

LOVE AND MARRIAGE
Last year more American men married at age 21 than at any other age, and more women married at age 18, says the Population Reference Bureau.

If you sliced the 1960 marriage statistics down the middle, you'd find the median age for grooms was 22.8 years, for brides 20.3 years.

These figures show, said the bureau, that young folks getting married for the first time are younger and closer in age in the United States than in any comparable nation.

LUNAR BLOODHOUND
Now they've built a little black box that will act like a bloodhound on the moon—sniffing out

the gases that emanate from the moon's soil for traces of life chemicals.

The device—which will be shot to the moon in 1963 as part of the U.S. Surveyor space craft—will be able to break down small samples of the moon's soil and report back what chemicals it finds.

It will look for certain carbon chemicals associated with life—chemicals which have already been found in meteorites, and which may have been the essential life beginnings on earth.

DAY SHIFT
Scientists can now take pictures of planets, rockets and missiles in broad daylight—pictures that once could only be taken at night.

The pictures, which can be transmitted directly to indoor screens, can be viewed continuously—thanks to the Facet-Eye camera, developed at the Air

Force Missile Development Center, Holloman Air Force Base, N.M.

The camera has already viewed Venus and Jupiter—and may make practical the 24-hour observation by visual means of satellites and rockets in space. It uses 19 long-barreled telescopes each focused on a single point in the sky—and superimposes one image on another.

It thus obtains the magnification of one large telescope, but gets clear images in daylight by reducing the amount of stray light.

A THEORY OF WEATHER

A way in which the sun may be a builder of the world's weather has been suggested by a Soviet

scientist, says the Soviet news agency Tass.

Dr. Dmitry Drogaitsev believes the building of high and low pressure areas in the earth's air—and the circulations of winds—correlates with the activity on the surface of the sun.

His theory suggests: The sun as it affects the electrical currents in the upper atmosphere and the earth's magnetic field as it in turn affects those currents causes buildups in density of air around the equator and polar areas. The concurrent drain on air supplies of the tropics causes the low pressure areas, which often bring storms and mixing of air to the earth's surface.
